I know a little something about sports and my state of Oklahoma. That's why I am very disappointed in our governor for encouraging the barbaric blood sport of cockfighting in our great state. Staged fighting between animals is cruel, immoral, deeply unpopular in our state, and a felony to boot. I hope that Governor Stitt made a terrible mistake and that he will correct the record and indicate he opposes cockfighting and will oppose any legislation at the capitol to weaken our law. I voted for the **anti**-cockfighting law in 2002 and supported every word.
