I'm Dennis Baker, the Democrat running to stop MAGA extremists from taking over Oklahoma's HD-71 in the June 10th special election. MAGA is coming for our schools and Trump's handpicked education chief is trying to use public funds to push "Trump Bibles" into classrooms.

I grew up attending Oklahoma public schools. They helped me become the first in my family to go to college and eventually even helped this small-town kid become an FBI Special Agent on the team hunting Usama Bin Laden. I know firsthand the power of public education—and I won't stand by while MAGA attempts to take over our schools.

Our kids should be learning from real textbooks—not MAGA propaganda. But we have to win special elections like mine in order to fight back. And right now, not enough Democrats are engaged in this fight.

, we need more Democrats to step up and reject MAGA extremism. Can I count on you to rush in a donation right now to help win this Special Election and stop the MAGA takeover of Oklahoma?
